

1. INTERSTATE RECONSTRUCTION – I-75, COOLIDGE TO NORTH OF SOUTH BOULEVARD (IN AUBURN HILLS)

This project, under the jurisdiction of the Michigan Department of Transportation (MDOT), is the first phase of a multi-year, mega project to widen and reconstruct I-75 to four (4) lanes in Oakland County. Phase I from north of Coolidge in Troy to South Blvd. in Auburn Hills is anticipated to take two years, starting June 2016 and ending November 2017. Most of the work in Phase I is outside of Troy, but it does include full removal and replacement of four (4) bridges. They are the NB and SB I-75 bridges over Adams, and NB and SB I-75 bridges over Square Lake.

2. MAJOR ROAD RECONSTRUCTION – DEQUINDRE, RANIERI (SOUTH OF BEAUMONT HOSPITAL) TO UTICA ROAD

This project, under the jurisdiction of the Road Commission for Oakland County (RCOC), is reconstructing most Dequindre Road which is currently five lanes. The section that is two lanes will be widened to five lanes. This is the first phase of a larger project that will widen and reconstruct Dequindre from Long Lake (Troy) to Auburn Rd. (Rochester Hills). Work on Dequindre, between Ranieri (Troy) and Utica Road (Rochester Hills) is anticipated to start in June and be open to traffic in November.

3. MAJOR RD. RECONSTRUCTION – SOUTH BOULEVARD, LIVERNOIS TO ROCHESTER

This project will reconstruct the intersection of South Blvd. and Rochester Rd. with concrete, upgrade the traffic signal, mill South Blvd. pavement and overlay it with asphalt, between Livernois and Rochester. To facilitate the complete reconstruction of the intersection, South Blvd. will be closed in both directions at Rochester Road from May to July 4th. A detour route will be posted for South Blvd. traffic. One lane of traffic will be maintained in each direction on Rochester Road. The entire project is anticipated to be open by August.

4. MAJOR ROAD RECONSTRUCTION: SOUTH BLVD AT LIVERNOIS

This project is under the jurisdiction of the RCOC. The intersection will be reconstructed, a new traffic signal installed and right turn lanes constructed on NB and SB Livernois and WB South Blvd. Traffic will be maintained during construction. Work is anticipated to start in July and be complete in November.

5. MAJOR ROAD OVERLAY – WATTLES, ROCHESTER TO DEQUINDRE

This project includes milling select areas of the existing pavement and placing an asphalt pavement overlay to provide a new surface on Wattles Rd. The project also includes minor widenings and the removal and replacement of concrete curb and gutter where needed. Construction is anticipated to start in July and be complete by Labor Day.

6. MAJOR ROAD RECONSTRUCTION – BIG BEAVER, ADAMS TO WOODWARD

This project, under the jurisdiction of RCOC, is not in Troy but it impacts traffic in Troy. Big Beaver, between Adams and Woodward, will be completely reconstructed and repaved with asphalt. The project includes replacement of dual drain culverts that carry the Rouge River under Big Beaver. Big Beaver is currently closed for private utility relocation and will remain closed for the road reconstruction anticipated to begin in June and be complete in November.

7. LOCAL 7. LOCAL ROAD OVERLAY – SECTION 19 SW ¼ (NORTH SIDE OF BIG BEAVER, BETWEEN ADAMS AND COOLIDGE)

The following roads in Section 19 (south of Palmerston) are scheduled to receive an asphalt pavement overlay: Wendover, Paddington, Newgate, Stoneyridge, Oakhill, Tothill, Wembley, Chelsea, Hampton, Upton, Weathervane, Henhawk, Myddleton, Kingsley, Caswell and Beach. This project includes milling select areas of the existing pavement and placing a new asphalt pavement surface. Work is anticipated to start in April and be complete by the end of June.

8. LOCAL ROAD OVERLAY – SECTION 4 (GLEN-MOOR ESTATES)

The following roads in Glen-Moor Estates are scheduled to receive an asphalt pavement overlay: Fredmoor, Vernmoor, Houghten, Scone, W. Lovell, Hurst, Troyvalley, Canmoor, Herbmooor, Elmoor, Blackwall, Niles, Troyvalley and Aspinwall. This project includes milling (grinding off) select areas of the existing pavement and placing a new asphalt pavement surface. Work is anticipated to start in April and be complete by the end of June.

9. CONCRETE SLAB REPLACEMENT – LOCAL ROADS

The Dept. of Public Works will be replacing concrete slabs at scattered locations throughout the City. Specific locations and additional information can be viewed at www.troy.mi.gov/streetsprojects. These roads were selected based on the City's pavement rating system (PASER) and field verification. Sidewalk ramps adjacent to the road project will be replaced as necessary. Work is anticipated to start in April and be complete by the end of June.

10. STREAMBANK STABILIZATION – SYLVAN GLEN PHASE 2

This project will address streambank erosion, storm sewer repairs, native vegetation restoration, and remove two existing stream crossings at the Sylvan Glen golf course to provide for a safer more maintainable golf course. The project is under construction and is anticipated to be substantially complete in May.

11. SANITARY SEWER – WATTLES STORAGE – CHESTNUT HILL COURT TO ROUGE RIVER CROSSING

This project is under the jurisdiction of the Oakland County Water Resources Commissioner's Office (WRC). Approximately 3,500 feet of 60-inch pipe has been installed along Wattles Road in Troy and Bloomfield Township to provide 500,000 gallons of temporary storage, below ground, during a rain event. The project is part of an effort to reduce sanitary sewer overflows (SSO's) during wet weather. A closure of Wattles Road between Adams and Beach is currently in place to facilitate the work. Construction started in January and is anticipated to be complete by Memorial Day.

12. CONCRETE SLAB REPLACEMENT – INDUSTRIAL ROADS

The Department of Public Works will be replacing concrete slabs at scattered locations the following industrial roads: Corporate, Investment, Tower, Butterfield and Minnesota. These roads were selected based on the City's pavement rating system (PASER) and field verification. Work is anticipated to start in July and be complete in the fall of 2016.

Construction Projects May - August 2016
